Lesson 2

All Chinese people are fighting against the virus.

Some super friends join us .

meet new friends

drone

I can fly. I help to monitor people in group

monitor

high-tech helpers!

robot

I can walk. I help to deliver food to patien

deliver

telemedicine system

远程诊疗系统

I can’t walk or fly. But I can help doctors to diagnose patients.

diagnose

诊断

Who?

How?

What?

Where?

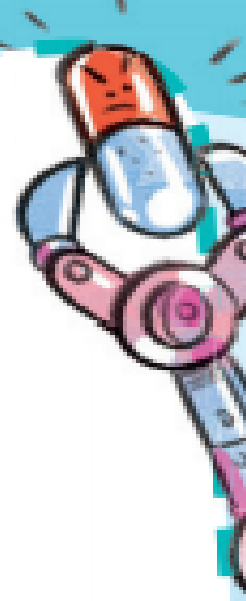
Why?

Telemedicine system

Telemedicine system

远程医疗

1min



With *remote vedio system* (远程视频系统), doctors can check patients without seeing them in person. Also, doctors from different hospitals can have a meeting by using the system at the same time. This saves a lot of time. Both Huoshenshan and Leishenshan hospitals have this system.

A tip: Catching key words is a good way to learn.

About telemedicine system

Who?

the doctors from dibberent places

How?

with remote vedio system

What?

check patients
have a meeting

Where?

both Huoshenshan and Leishenshan hospitals

Why?

without seeing people sinverpersas dnot of time

Look! People in groups! Where are they?
Can they be together now? Who can warn them?

Drones warn people in groups

无人机监督聚众群体

In some **rural**[3] places, 乡下的 police use drones to monitor people in groups. When the drone finds big groups of people, police will warn them through the loudspeaker on the drone. In some places, people also use drones to *disinfect* (消毒) their communities.

About drones

Who	what	how	where

A tip: Catching key words is a good way to learn.

Drones warn people in groups

无人机监督聚众群体

In some **rural**[3] places, police use drones to monitor people in groups. When the drone finds big groups of people, police will warn them through the loudspeaker on the drone. In some places, people also use drones to *disinfect* (消毒) their communities.

Drones warn people in groups

Who	what	how	where
police	monitor people in groups	through the loudspeaker on the drone	in some rural place
people	disinfect their communities	with the drone	in some places

Make a report like this:

In some rural places, police use drones to ---through ---- ,

In some places, people also use drones to ---with ---- ,

Listen and guess

Smart robots

They help to---.

Telemedicine system

Drones

Robots

high-tech helpers

?

About AI system

Read and fill in the blanks.

At the Mudanyuan subway station in Beijing, an AI ___ fevers. When people pass by, the system scans their faces. It can check ahout 300 people in one minute

3D

Read and judge.

About 3D

1. A company in Shenzhen used 3D technology to print 15 rooms.
2. The rooms were for the doctors in Hubei.
3. It took them a whole day to print the rooms.

Read and judge.

3D 'hospital'

3D病房

A company in Shanghai *printed* (打印) 15 rooms by using 3D technology. They sent the rooms to Hubei for **patients**[4] to live in. Each room is about the size of your bedroom. A 3D printer takes 24 hours to build the rooms.

About 3D

(T) 1. A company in Shanghai used 3D technology to print 15 rooms.

(T) 2. The rooms were for the patients in Hubei.

(T) 3. It took them a whole day to print the rooms.

Telemedicine system

AI system

Drones

high-tech helpers

They are safe and helpful.

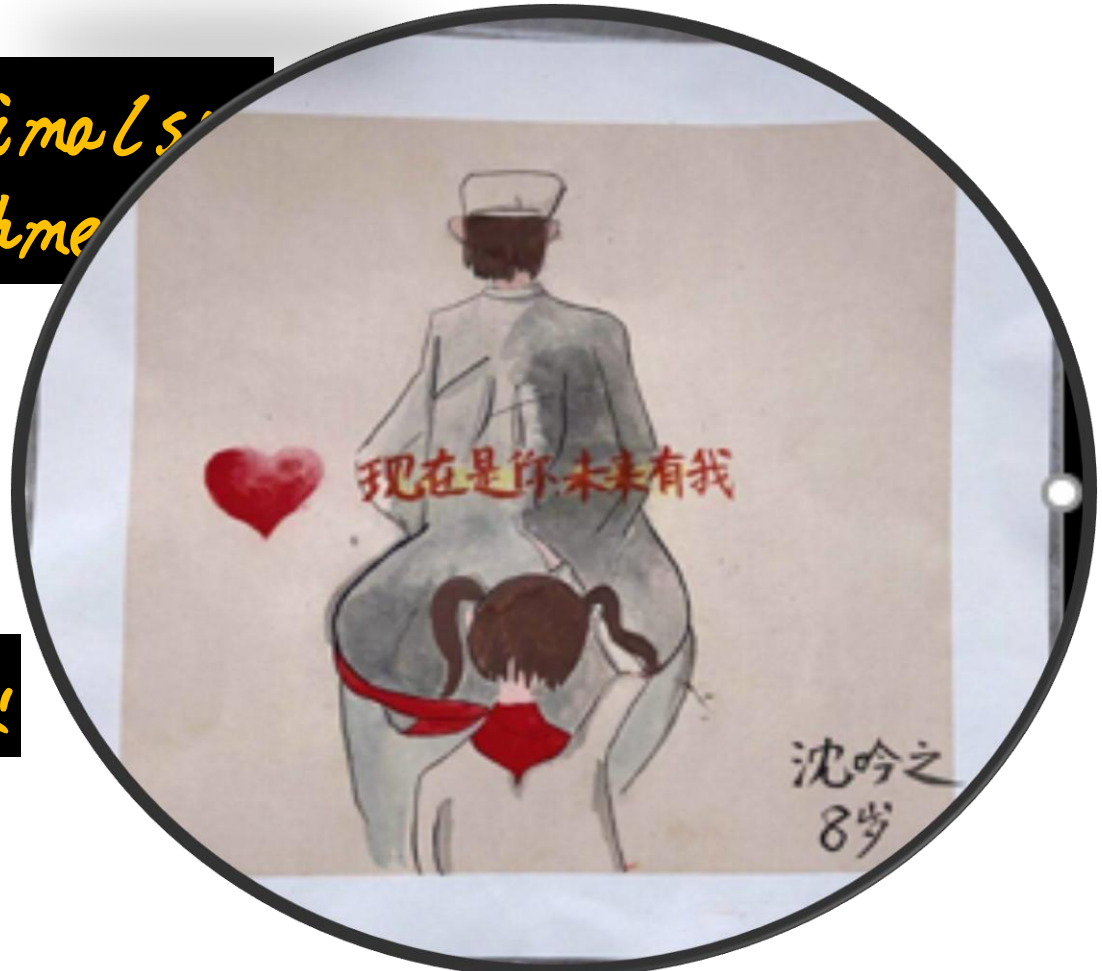
Robots

3D

Now, the situation becomes bett[illegible]letter.

1 Let's form good habits:
Wear a mask! ---

2 Let's cherish animals:
Don't eat bushme



3 Let's be brave!

Assignments for you

1 Read the rest of the newspaper.
(阅读报纸其他内容)

2 Learn more about how people fight the virus.
(了解更多关于抗击疫情的事情)

Thank you
